

Delicious and Clean,  
always in Season.

CoCo Work started its operations in 2019 as one of Sumitomo Pharma's initiatives to address the social issue of "employment for individuals with mental disabilities" in the field of mental disorders. Alongside members with mental disabilities, we grow leafy vegetables such as frill lettuce and arugula through hydroponics in a sunlit glass greenhouse in Osaka's Esaka district. "Our motto is 'Delicious and Clean, always in Season.'"

We aim to deliver fresh and delicious vegetables that are pesticide-free throughout the cultivation period, ensuring the safety and peace of mind for all our customers.

We are growing vegetables!

**Corporate Philosophy:** We strive for each individual to work in their own unique way, creating smiles and deliciousness.

**Guiding Principles for Action:**

**Respect:** Let us treat each other with respect, care, and compassion.

**Sincerity:** Let us approach ourselves and our vegetables with honesty.

**Safety and Security:** Let us deliver vegetables that are safe and secure to our customers.

**cocowork co., ltd.**

Sumitomo Pharma's subsidiary company

Sumitomo Pharma is dedicated to tackling social issues related to mental disorders, including supporting employment and social reintegration for individuals with mental illnesses.

Our website introduces shops where you can purchase cocowork vegetables and provides recipes, among other things.

<https://www.cocoworkjoy.com/>

You can purchase vegetables through the direct-from-farm website, OWL (pronounced "owl").

We have started cocowork Coffee in collaboration with popular Hiro Coffee, known for its premium beans.

By adjusting the division of tasks and gaining confidence through engaging in tasks the members excel at, they have gradually increased the things they can do. As a result, everyone has started to have their own time to shine.
